Department of Geography

Programme Outcome

(CBCS Curriculum Structure Academic Year-2022-23)

Programme: BA Geography

Year: 2022-23

In compliance with recent directives from the University Grants Commission, the undergraduate & postgraduate syllabus for Geography is reformed into Choice Based Credit System prepared by Dr. Babasaheb Ambedkar Marathwada University, Aurangabad. Main objective of this new curriculum is to give the students a holistic understanding of the subject. Principal goal of the syllabus is to enable the students to secure a job at the end of the undergraduate programme.

1. Student will gain the knowledge of geography. They will gather knowledge about the fundamental concept of geography.
2. Imbibing knowledge, skills and holistic understanding of earth, atmosphere, ocean, landform development and climate change.
3. Associating landform with structure and process, establishing man-environment relationship.
4. Developing a sustainable approach towards the ecosystem and the biosphere with a view to conserve natural systems and maintain ecological balance.
5. The physical environment, human societies and local or global economic system are integrated to the principals of sustainable development.
6. Inculcating a tolerant mindset and attitude towards the vast socio-cultural diversity of India by studying and discussing contemporary concept of social and cultural geography.
7. Explaining and analyzing the regional diversity of India through interpretation of natural and planning region.
8. Analyzing the differential patterns of the human habitation of the Earth, through studies of human settlements and population dynamics. Understanding and accounting for regional disparities, poverty, unemployment and the impact of globalization.
9. Training in practical techniques of mapping, cartography, software, interpretation of maps, photographs and images etc.
10. As a student of the geography course they will enrich their observation power through field experience and in future this will be helpful for identifying the socio-environmental problems of their community.
